HEALTHCARE & HOSPICE

Our wishes

Embroidered blankets

Our Precious Memory Packages, which are given to patients upon intake, include washcloths handmade by our volunteers and a few essential items for personal care. They also include warm blankets to help keep our patients comfortable and to remind them they are loved not only by their caregivers, but by our staff.

\$25, 200 needed

iPads

The latest technology will help our nurses to track all elements of patient care in the most efficient manner. We can also use our iPads to support our patients and their families by offering a means to communicate face-to-face with loved ones who can't be physically present during this critical time.

\$550, 10 needed

Medical journals

Our Family Caregiver Support Network will provide journals to help caregivers track the often confusing specifics of their loved one's complex plan of care. Journals give family members the opportunity to keep a log of questions as well as medications, schedules and names of care providers.

\$1,000 to print 100 journals

Relaxation CDs

Relaxation techniques promote calm and a sense of peace during a tenuous time. Our staff will utilize these CDs to provide the best environment of comfort to our patients.

\$25, 100 needed

Bereavement support

Losing a loved one is never easy, regardless of the amount of time to prepare. Donations to this program will give our staff the resources to help family members memorialize their loved one and cope with their grief. Through our bereavement program, we also offer an annual service of remembrance to bring families together to support one another and find strength in community.

\$100 per family, 50 needed

Hearing aids

Many of our patients, either as a result of their illness or age, struggle to hear, which can make it difficult to enjoy time with their family. The use of a simple hearing aid can alleviate this problem and bring our patients great comfort.

\$150 per unit 10 needed

Why a Wish List?

Hospice care is deeply personal and unique. It can be difficult to comprehend the value of what we do at VNA Community Healthcare & Hospice until one has had first-hand experience. We ask members of the community to think of their own life journey and those of their loved ones and friends to consider how support of our agency and its mission will have lasting ripple effects on wellness.

For more than a century, VNA Community Healthcare & Hospice has been a nonprofit leader in home healthcare. Help us continue our mission for years to come with our minds set on healthcare innovation and our hearts set on the best quality of life for our patients.

No gift is too small and all are precious and vital to our patients. Please consider making a tax-deductible donation.
