VACCINE BUDDIES

Offering virtual support to individuals who are unable to complete the Covid Vaccine application process independently.

A collaboration between the Agency on Aging's Volunteers and Volunteers from Interfaith Volunteer Caregivers.

We understand that many of our local seniors are challenged by the process of making a vaccine appointment due to lack of online/Wi-Fi or telephone capabilities. Referred clients must be willing to provide all essential information necessary for completion of the vaccine appointment.

We will follow the distribution guidelines established by the CDC, starting with Phase 1b with 75 years and older and so on.

Volunteers will assist with online and/or telephone appointment registration.

Please submit the attached referral to Cherie Strucaly at cstrucaly@aoascc.org.
